TECHNOLOGY

The **2022 IMTS Exhibitor Show Stoppers!** (August Show Issue - Closes July 21st!)

This is the gear industry's big event; let us help you make the most of your investment!

You've made the investment into booth space, staff and travel, now for just \$1,095 more you can help make sure it pays off!

- With over 1.2 million square feet of exhibit space and over 2,000 exhibitors, it's easy to get lost at this show. Make sure those most likely to buy from you know that *you're* at the show and set aside time to talk to you.
- Reinforce your brand with the thousands of gear manufacturers who won't make it to Chicago but look to *Gear Technology* show coverage for what is new and what they might be missing.

Only *Gear Technology* can deliver that message directly to the gear manufacturers you want.

To book your Show Stopper ad, simply complete the form on the last page and send it in as soon as possible.

BONUS! – In addition to the print issue, a special e-edition of our Show Guide and the Show Stoppers will broadcast prior to the show including your ads at no additional charge.

Basic ad design and development is available on request at no additional charge.

Submit your order or contact Dave Friedman (friedman@agma.org) today for more information.

SOME MISSING TEETH ARE EASIER TO LOCATE

FOERSTER testing systems can verify material properties and heat-treat conditions; detect cracks, chipped or missing teeth in the most intricate of manufactured gears.

Utilizing eddy current technology, Non-Destructive Testing (NDT) equipment designed for your production line.

Contact a FOERSTER representative today to design your specific customized gear testing system.
