***NEWEST INNOVATIONS* at IMTS 2008**

September 8-13, McCormick Place, Chicago

Grind a broader range of complex tools in less time.

The CTG-3 tool and cutter grinder features a small footprint for manufacturing or reconditioning cutting tools, part programming through NUMROTOplus Software, flexibility via a three-station HSK grinding wheel pack and coolant manifold change system. An auto loading system is also available for unattended operation.
