

CALENDAR

JULY 24-27

International Metallographic Society 27th Annual Convention. Le Centre Sheraton, Montreal, Canada. More than 50 presentations on subjects included in the theme, "Advances in Materials and Microstructural Characterization Techniques." For more information contact ASM, (216) 338-5151 x703 or fax (216) 338-4634.

AUG. 25

ASME-GRI Annual Meeting. Holiday Inn O'Hare International, Rosemont (Chicago), IL. Seminars will

cover a variety of subjects, including bevel gearing, lubrication and pitting and bending in induction hardened gears. For more information contact Sharon Schaefer, (708) 241-0660 or fax (708) 241-0662.

SEPT. 7-9

University of Newcastle/British Gear Association 1994 International Gearing Conference. University of Newcastle. For more information contact Jane Wallace, Dept. of Mechanical Eng., Stephenson Building, University of Newcastle, Newcastle upon Tyne, England, NE1 7RU.

SEPT. 11-14

ASME 1994 Design Technical Conferences and International Computers in Engineering Conference. Hyatt Regency Hotel, Minneapolis, MN. For more information contact ASME, (212) 705-7788 or fax (212) 705-7856.

SEPT. 12-16

AGMA Training School for Gear Manufacturing. Daley College, Chicago, IL. Hands-on training for shapers, hobbers and inspection. Contact AGMA, (703) 684-0211 or fax (703) 684-0242.

SEPT. 14-16

Ohio State University. Short Course on Gear Noise. Robinson Laboratory, OSU campus. Lectures, case histories, lab demos. For more information contact Carol Bird at OSU, (614) 292-3204.

OCT. 9-11

AGMA 22nd Annual Gear Manufacturing Symposium. The Westin Hotel, Cincinnati, OH. Technical training and papers on a wide range of gearing subjects, plus a new feature, interactive problem-solving sessions. For more information call AGMA, (703) 684-0211 or fax (703) 684-0242.

The TOCCO Advantage: Replacement Parts

TOCCO induction equipment is designed and built TOUGH... to withstand years of rigorous shop conditions.

Fast Response - When and if replacement parts are required, our large inventory of OEM Spec. replacement parts are ready for shipment... FAST!

Round The Clock Help - TOCCO also maintains one of the finest customer service staffs in the induction heating industry... highly skilled, dedicated and prepared (24 hours a day) to help when you need it.

Total Support - Whether you need a single part or plan to rebuild an entire system, consult your customer service representative for genuine TOCCO parts. We can also help with: JIT programs • Inductor exchange programs • Maintenance contracts • Employee training • Diagnostics • Power supply rental • Total system rebuild • Inductor development • Complete metallurgical laboratory

Things are heating up at TOCCO! And, with 50+ years experience in heat treating, we can keep your systems operating... delivering MAXIMUM PROFITABILITY, EFFICIENCY and ACCURACY for years to come. For further information contact: TOCCO INC., 30100 Stephenson Highway, Madison Heights, MI 48071. Phone: 313/399-8601 or Toll Free: 1-800-468-4932
