Digital Micrometers

B. C. Ames introduces a line of new hand-held, digital micrometers with floating-zero or absolute/preset measuring modes and throat depths from 1-24". They have .305" high LCD characters and are powered with either zinc-air batteries or an A/C adapter. Optional cables provide RS232 or BCD outputs.

Severe Duty Bearing Grease

Nye Lubricants recently introduced Rheoplex 6000 HT, a new high-temperature synthetic grease designed to reduce torque and extend the life of high-speed, rolling element bearings in industrial machinery. A synthetic hydrocarbon formulation, and cost-effective alternative to expensive fluorinated lubricants for high temperature applications, Rheoplex 6000 HT resists melting at temperatures as high as 260° C. It is available for immediate delivery in one-pound jars and seven-and 35-pound pails.

Our Gear Dressing Discs Give You European Quality

With U.S.A.-made Turnaround

Tired of holding up production of your high quality gears while you wait for overseas quality diamond dressing discs? Wait no more. Winter's premier quality diamond dressing discs are manufactured right here in America, in a state-of-the-art facility in Travelers Rest, South Carolina. That means immediate access to the world's finest quality dressing discs for your Reishauer SPA, Fässler DSA, Okamoto or Csepel dressing units.

You won't have to go overseas when your dressing discs need repair, either. Our sets of dressing discs are offered two ways: sintered, randomly distributed diamond, or plated, single layer, randomly distributed diamond. We offer a full range of standard modules and diametral pitches. If you require a non-standard module or a special tip modification, we can handle that, too. All in record U.S.A. time.

Flexible Flashlight Holder

Cedarberg Industries introduces the Rap-A-Lite™ flexible flashlight holder for use with 1/2" or 3/4" diameter Mag-Lite® or similar flashlights. The tool holds flashlights in position with 3-dimensional adjustability and is ideal where extra light is needed in tight or awkward places. The flexible arm can be twisted, coiled or draped to hold a flashlight in various positions while hands are free to work.
