

VIEWPOINT

Letters for this column should be addressed to Letters to the Editor, GEAR TECHNOLOGY, P.O. Box 1426, Elk Grove Village, IL 60007. Letters submitted to this column become the property of GEAR TECHNOLOGY. Names will be withheld upon request; however, no anonymous letters will be published. Opinions expressed by contributors are not necessarily those of the editor or publishing staff.

Dear Editor:

The cost of teaching salesmen the ins and outs of gearing has proven to be expensive. Your journal is just what we have been looking for. We found your article on lubrication analysis on gearing very interesting. More on the basics and more on lubrication would be appreciated.

William G. Lengenfelder, President
Modern Machine Works

Congratulations on your bold move in publishing a magazine devoted to gear

manufacturing. In my opinion, this is something that has been needed for a long time, and I admire your courage and convictions in jumping into such a venture.

Both issues have been outstanding, and if future issues maintain the same high standard, I am absolutely certain everyone in the industry will benefit.

Keep up the good work, and we look forward to your continued success in the publication of this fine journal.

Robert Cragg, President
Earle Industries, Inc.
